

ION ALKALINE WATER

Change Your Water Change Your World

If someone showed you a proven, simple and effective way to fight back against all disease including cancer would you do it?

Nobel Prize winner Dr. Otto Warburg proved to the medical world that “No disease, including cancer can exist in an alkaline environment.” You have probably heard this statement before and never realized that it is a proven established medical fact. There is not a single doctor or hospital that can disprove, or will deny the validated proof by Dr. Warburg. Today there actually is a very effective way that you can fight back against life-threatening diseases. A product that probably would have sent Dr. Warburg dancing in the streets because it best represents a very effective way to fight back against all disease and will alkalize the human body.

The owners of Ion Alkaline Water, RJ and Gail, are all too familiar with how to fight against disease and cancer. Gail, a native of New Orleans who grew up in Algiers **is a very rare pancreatic cancer survivor**. She had a Whipple (operation) performed by renowned surgeon Dr. Bolton at Ochsner.

After surgery Gail decided to forgo the recommended chemotherapy and radiation. Since that brave decision she has had four clean scans, and after her recent scan, her oncologist gave her a ONE YEAR hall pass. YEA!

They both understand the importance, and are knowledgeable in how to bring your body into an alkaline condition. Gail feels that the **active hydrogen in REAL Ion Alkaline Water** was a major contributing part of her recovery. Bringing her body into an alkaline condition is the most consistent and prevalent change along with a few other options she made to her lifestyle. RJ suffered from very painful chronic gout for over 30 years, where he spent about 20 days a month limping or on crutches. His gout was so severe, he could not walk across a mall and suffered from swollen knees and joints constantly. “I did not know life without some measure of pain every day.” He tried every gout remedy and pill to no avail. He now walks all day without pain or swollen joints.

As the owners of the only national franchise and first national alkaline water store they chose the Northshore city of Mandeville as their pilot store for Ion Alkaline Water purifiers. Seven new franchise locations are opening in other states and a new location is in the works for Metairie. The store offers many alternative health options that detox, purify, and wash acids and toxins from your body; while at the same time, infuses your body with the active hydrogen from ION alkaline water purifiers.

After taking apart over 50 alkaline water units from all over the world RJ was shocked at the shoddy parts he found in some of the expensive units. Selecting only the best parts he designed several purifiers. “We have the best purifiers and I will challenge anyone to outdo our units. Paying a high price does not necessarily mean you have a good quality unit.

“Beware of the Kangen water pyramid sales scam. Most of us would not go to a warehouse or a garage to buy a \$5000.00 diamond ring for our wife. Why people pay that much money for a Kangen water system in a garage is mind blowing to me. I will give them this much, they have a SLICK sales pitch. It is a pyramid sales scam period! It’s not worth the money and why do they not have a store front?”

I own interest in two companies that assemble our ION alkaline water purifiers, our prices are fair because you are effectively buying direct without a middleman. Our desire is to reach people as economically as possible for them to enjoy the health benefits of real hydrogen infused ION alkaline water. CANCER FIGHTERS CAN OBTAIN FREE REFILLS OF FRESH HYDROGEN INFUSED ALKALINE WATER.”

The store offers counter top, and some really nice under the counter alkaline water purifiers. The units were also designed to move when you do. They all dispense 4 customized levels of alkaline, purified water, and acidic water for multiple uses. They love to prove to you, and your doctor that by drinking real HYDROGEN INFUSED alkaline water you can lower your blood pressure, blood sugar, and reduce your cholesterol.

Since opening the store, many of the stores protocol participants claim many personal medical victories. Some have stopped taking type II diabetes medications, acne gone, acid reflux gone, a five year urinary tract infection gone and prostate cancer at a standstill. Gout reduced or gone, hands that used to shake, shake no more. Cancer patients with clear clean scans and some are keeping cancer growth at a standstill. Digestive systems that did not work now work and some in the protocol say that alkalizing their body facilitates weight loss. Nearly everyone agrees to a large boost of energy. Of course this is the part where we are supposed to say results may vary; and they do. But they are some very good results and those obtaining the results are very bold about them.

One of the original purposes of the store was to make REAL hydrogen infused alkaline water cheaper than buying and hauling plastic bottled water. “100% of all bottled water is ACIDIC or dead water due to reverse osmosis processing. Bring me your bottled water and I will prove it to you.

“I think everyone deserves to have access to this healthy, super clean, pure great tasting water. As consumers people should never have to worry about chemically polluted tap, well, or the dangerous BPA plastic in bottled water. We have the solution for people to fight back against every manner of disease and never fear about having quality drinking water again. If you change your water, it will change your world.”

At the present time RJ says there is no such thing as real hydrogen infused alkaline bottled water available commercially. “The bottles being sold as alkaline water in the stores are not REAL hydrogen infused alkaline water. **Some of the worst bottled waters are** EVAMOR, KENTWOOD, EVIAN, DASANI OZARKA and AQUAFINA. The only way to get real hydrogen infused alkaline water is directly from the source of your own ION alkaline water purifier and it must be consumed within 24-48 hours. **If I could put REAL hydrogen infused alkaline water in a bottle, BILL GATES would be my chauffeur.”**

The purifiers were also designed to produce a high quality acidic water that is used to rinse fruits, vegetables and meats. It kills bacteria in 30 seconds and washes off farm residue. There have also been great protocol results with customers using the acidic water to treat acne, sore throats, mouth sores, even athlete’s feet. The acidic water is great for sanitizing kitchen counters and floors. This beats using chemicals. You really need to see this demonstration live in the store.

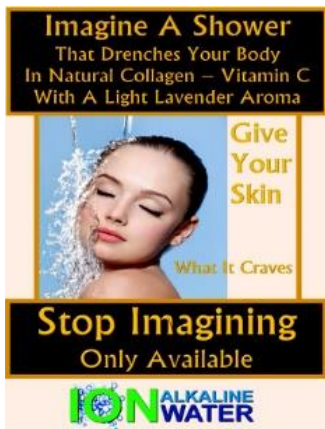

So how does one begin to alkalize their body? By simply drinking **REAL hydrogen infused** alkaline water daily. It will flush toxins and reduce your total body acidity. Real hydrogen infused alkaline water is the world’s strongest antioxidant. **It is stronger than any other food or supplement.** This fact gives it the power to stop free radical attacks instantly. You can boost your immune system, improve colon health, and hydrate your body 6-8 times faster than water. Did I mention this is very clean nice tasting water?

Now you can have one of these amazing purifiers in your home or office at an affordable price. Rental units are available on a monthly basis and require a minimum six month rental starting at \$39.00. Your first six months rental goes towards the purchase price. If you decide to buy or trade up to another unit. The rental payments and security deposit are transferable to another purifier.

The store also carries everything from organic stevia, to BPA FREE fruit infusion water bottles. A new organic easy burn energy cube called Legal Cheaters that are absolutely yummy. Infrared Detox Saunas with 6 exciting models. The health benefits of Infrared are well established: detoxify and cleanse, pain relief, heart health, lower blood pressure, weight loss, cell

health, wound healing, circulation, anti-aging and purification, and relaxation. Infrared saunas work by increasing your core temperature 2-3 degrees and penetrates the body up to 2 inches to help release the impurities in the body through the pores of the skin. Home infrared detox saunas have an opening price at only \$2350.

The latest invention by RJ is a shower filter that removes all chlorine and adds aroma therapy (light lavender), natural collagen, and vitamin C to your body when you shower. There is a huge demand for the shower units so shop early. Ladies and men are hailing the skin benefits and it makes a great gift item. The options for the natural collagen filters start at \$79.99 making it another affordable option for any home. The infrared detox sauna spa is now open and you can try it out for just \$10 in a private room and comes with your own collagen shower.

Commercial units for restaurants, gyms, and spas are available at ZERO investment by store owners. Now you can offer REAL hydrogen infused alkaline water to your customers with no upfront costs. Absolutely nothing out of pocket. Call RJ for details.

The owners believe in giving back. With the purchase of an Ion Alkaline Water purifier or an infrared sauna, a donation in your name is made to a charity of your choice. Either Mary Bird Perkins, We Vets, or St Jude's Children's hospital.

Everyone is invited for a live demonstration to test your bottled water and drinks to see the damaging effects on your body. REAL Hydrogen infused alkaline water beats every sports drink hands down, hydrates 6-8 times faster and delivers high level energy to the body during workouts. Bring a mason jar of your water to the store for a free water analysis.
